

28mm Tongue & Groove Laminated Woodgrain Effect Premium Boards

The ultimate exterior film, RENOLIT EXOFOL FX.

Transparent PVD layer

Transparent PMMS film

Printing ink

Pigmented PMMA base film with SST

Primer

Recycled plastic T & G boards with a double sided laminate finish - 138 x 28mm.

- Maintenance free
- Does not need any chemical treatment
- Can be pressure-washed
- Extremely durable
- Long life span
- 100% recycled & recyclable
- Environmentally friendly lifestyle
- Resistant to decay
- Non-splintering
- Waterproof
- Does not absorb moisture
- Ideal in wet/marine situations
- Pest, insect & rot proof
- Hygienic
- Non-toxic
- Evenly coloured
- UV-resistant
- Easy to install

Structure of the exterior film:

Solar Shield Technology (SST) takes away the sun. Infrared radiation from the sun is reflected by SST. This results in cooler profiles and a host of other benefits. The transparent upper layer consists of polymethylmethacrylate (PMMA) and absorbs more than 95% of the UV-radiation. The colours and woodgrain are protected from fading and other weather effects.

Chemical Resistance:

Resistant to normal household cleansing agents e.g. ammonia water, aliphatic benzene, light alcoholic-water-solutions, cleansing agents (non abrasive), water and building materials e.g. cement, gypsum. NON-resistant to organic solvents, mixtures of organic solvents and preparations containing organic solvents e.g. varnish-thinners, varnish-removers, polish and adhesives.

Workability & maintenance:

We recommend use of a wood saw blade with close teeth for cutting. Drilling with low speed and pre-drilling is advised. The maintenance effort is very low. Appropriate cleaning with a damp soft cloth with mild detergents, excluding abrasive products. Further maintenance is not required.

Golden Oak, Anthracite & Rustic Oak. Available in 1800 & 3600mm

Please note these boards are made from recycled plastic so there can be discrepancies in finish and colour from batch to batch.
